

Direct Doctors Patient Agreement – Prenatal Care Addendum with Dr. Ashley Lakin DO

For those who are electing to include Prenatal Care, the patient agreement is amended as follows:

1. Fee: Patient Agrees to pay Direct Doctors, Inc. a **one-time Payment of \$2000 if also joining as a patient member/is already a patient member or \$3000 if participating only in prenatal care.** There is no additional enrollment fee charged.
 - a. Patient understands that the prenatal care fee encompasses care for the term from signing the agreement until 8 weeks after delivery.
 - b. Patient understands that if they have not already joined as a primary care member, they will have the option to do so at the end of the prenatal care term with a waived initiation fee.
 - c. Patient understands that they may have their newborn child join as a primary care member upon birth with a waived initiation fee and a monthly fee per the current website rates at the time of delivery which are subject to change.

2. Notwithstanding the above, both Patient and Direct Doctors/Ashley Lakin DO shall have the absolute and unconditional right to terminate the Patient Agreement at any time for any reason. If Patient terminates the Patient Agreement and wishes to re-enroll with Direct Doctors, Patient shall pay a re-enrollment fee determined by Dr. Lakin.

As part of the Direct Doctors prenatal care agreement, the patient will have access to Dr. Ashley Lakin DO via text, phone and email, as outlined in the Patient Agreement. Services also included are as follows:

- Initial Prenatal Consultation: an extended visit to discuss any birth plans, and goals for the patient and the infant's care. This can be done in-person or virtually.

- Care throughout pregnancy with in-office visits according to current guidelines in prenatal care.

- During this entire time, Dr. Lakin is available by phone, text and email for acute/urgent issues. Unlimited office visits are also included as outlined in the Patient Agreement.

- Post-partum Care: 1 or 2 visits (as indicated), to occur 2 weeks (optional) and 6-8 weeks after delivery.
